## Program Description

The SLCC Plumbing curriculum prepares learners for a career as skilled plumbers. It covers the concepts technicians need to safely install, test, maintain, and repair many different types of pipe systems for residential, commercial and public buildings. Level 1 introduces you to plumbing, including plumbing safety, math and drawings, as well as the tools, materials and systems of the trade. Level 2 explores the next level of plumbing math, commercial drawings, and tools and systems, as well as a variety of complex installation processes. This program is 400 clock hours including lecture and lab. Successful completion of this program prepares the student for a plumbing apprenticeship or for employment as a plumber's helper.

**Program Cost**  
**\$6000**

**New Iberia Campus**
