Program Description

Our Basic Electrician program provides basic to advanced specialized instruction and practical shop experience to prepare students for employment within various electrical trades. The program consists of technical courses designed to develop skills in installation, testing, and troubleshooting of electrical equipment, fixtures, and wiring. Safe and efficient work practices are emphasized in each course. A study of all applicable electrical codes, standards, blueprint/wiring diagram interpretation, electrical theory, and various installation/construction processes appropriate to each area of expertise are woven throughout the program.

Program Cost
\$6,000

Campuses Offered
Lafayette
Opelousas
New Iberia
