Program Description

The Phlebotomy Technician program is designed to teach the knowledge in technical and procedural aspects of basic phlebotomy, including collection of blood specimens and venipuncture & capillary puncture, which is required to become a Phlebotomy Technician. The Phlebotomy Technician program provides a deep understanding of the fundamentals, theory, and hands-on instruction, including clinical instruction at a hospital or facility. Following training, students will be able to sit for the CPT Exam. The program prepares the student to obtain employment as a Phlebotomy Technician and to achieve career success in a rapidly changing healthcare environment.

Program Cost

\$2400
