Program Description

The Power Lineman program exists to fulfill the request of Business and Industry partners of a well-trained pipeline of students to fill employment gaps due to a retiring workforce. Our unique program was created by industry to meet the industry demands and provide a level of excellency unrivaled in our state. Our program incorporates 5 weeks of Class A training and certifications, NCCER Core certification, and 15 weeks of lineman focused training including hurt man rescue, pole climbing, safety/PPE, material identification, bucket truck, pole trailer, and digger derrick truck trainings. The level of training sets our graduates apart from all other entry level applicants entering the lineman industry.
